# Rudresh Oza

## *Full Stack Developer*

⚑ Portfolio  ✉ ozarudresh18@gmail.com  ☎ +91-8560839021  in Linkedin  �ن Github  ⓈStackoverflow

📍 Jaipur, India

## 👤 PROFILE

Experienced Full Stack Software Engineer skilled in Angular, NodeJS, and ReactJS with a proven track record of test-driven software design and recognized Open Source contributions. Seeking a growth-oriented company to further optimize skills and advance as a software engineer.

## 📁 PROJECTS

### Ticketing management system
- Developing a cruise ticket booking project with a user-friendly dashboard for streamlined management of customized SDKs catering to diverse cruise properties. This holistic solution aims to enhance reservations and improve the cruise industry's customer experience by efficiently configuring and managing SDK settings.
- Technology used:- **ReactJS, Redux-Saga, NodeJS, AWS, DynamoDB, Graphql.**

### CSMART,
Cloud – Secured Managed Automated Reporting Tool ⌧
- **C-SMART** is a comprehensive Azure cloud management platform that boosts organizational productivity in the Azure Cloud. It automates manual Azure resource management tasks, freeing your team. Collaborating with DevOps and infrastructure teams, we've improved software efficiency, making C-SMART the preferred solution for streamlined Azure operations, enhancing agility, and maximizing Azure Cloud benefits.
- Technology user:- **Angular, NodeJS, MySQL**.

### Telecommunication Web Application
- This web application is a fully integrated solution that combines multiple applications into a unified frontend using micro frontends. This approach simplifies administration tasks and development efforts, enhancing efficiency for both administrators and developers.
- Technology used:- **Angular, NodeJS, ArangoDB, Web sockets.**

## 🧠 SKILLS

JavaScript | ReactJS | NodeJS | DynamoDB | Angular

TypeScript | Git/Github | HTML | ExpressJS | CSS/SCSS

ArangoDB | Bootstrap | Jira | Microfrontends | MVC

MySQL | MongoDB | CI/CD | Azure DevOps

Elastic Search | Microsoft Azure | GraphQL
